speck pumps

speck Badu Action Swim Systems turn any pool into a real "swimming pool"

- Provides a constant current and unlimited long distance swimming
- Makes small pools bigger and big pools better
- The treadmill for your pool
- Portable and can be installed on any inground pool and most above ground pools
- Provides great aerobic exercise for all the family
- A refreshing and pulsating massage hose attachment also available

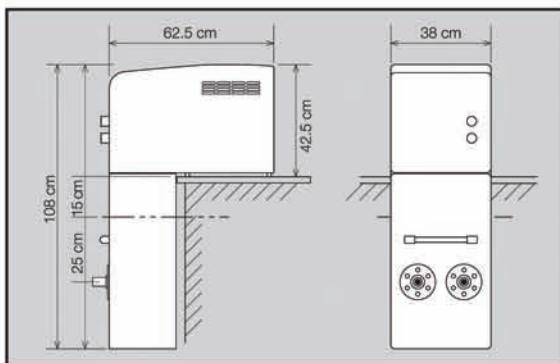

speck Badu Action Swim Systems

The Badu Action allows for constant distance swimming against a powerful water flow. Easily fitted over the edge of the pool, it turns any pool into a lap pool. The Badu Action delivers 54000 litres of water per hour at a rate of 1.15 metres per second. Enjoy the low impact benefits of exercising in water, take a challenging swim or have a leisurely stroke. Use the Badu Action to produce therapeutic and whirlpool like conditions with an intense spa jet. The Badu Action will add value to your pool and provide endless hours of fun and exercise for the whole family.

- A** Pump and controls enclosure approved for "Pool Zone" 1 (AS3136) mounting
- B** Air regulator to control volume of air bubbles in water flow
- C** Pneumatic button for ON/OFF switching
- D** Safety hand rail
- E** Swimjet flow and direction nozzles
- F** Pulsating massage hose (optional)

INSTALLATION

The **Badu Action Swim System** can be added to most finished pools.

The **Badu Action** is a complete, stand alone system, comprising a pump and electrical controls and is simple to install. The **Badu Action** requires 15 amp 240v 50Hz supply and must be fitted by a qualified electrician and installed with RCD protection to AS3000 standards.
